

FREE Lifeline with Home Care Services

PHILIPS
Lifeline

Accredited Home Care, one of Southern California's largest home care agencies – with more than 35 years' local experience – has teamed up with **Philips Lifeline Medical Alert Service** to offer affordable home care and client supervision 24 hours a day!

Caring, compassionate home care

Since 1980, Accredited has provided the finest custodial home care at affordable rates. With five local offices, we service Los Angeles, Orange and San Diego Counties. In addition to attending to clients' daily non-medical home care needs, our caregivers become the eyes and ears for family members and physicians.

Lifeline fills the after-hours void

Even though a client may not receive 24-hour/7-days a week care or supervision, we remain concerned for our clients' safety and well-being throughout the day and night. So Accredited has created a reliable, effective safety net: **FREE LIFELINE SERVICES** -- personal emergency response available at the push of a button... and an immediate emergency response if a client fall is detected by the Auto Alert Fall Sensor.

Our winning combination is the most affordable solution!

When a client schedules new services (20+ hours per week), the **Lifeline Medical Alert with Auto Alert Fall Sensor** will be included **at no additional charge!** We'll waive the installation fee (a \$75 value) and the monthly charges (\$50 per month) for as long as the client remains on service. If home care services are no longer required, clients may opt to continue the Lifeline as a monthly rental, or we will pick up the unit at no charge.

ACCREDITED HOME CARE: 800.974.1234

Five local offices serving Los Angeles, Orange and San Diego Counties:

WOODLAND HILLS • WEST LOS ANGELES • PASADENA • COSTA MESA • SAN DIEGO
